

CREATING VALUE BEYOND THE BOTTOM LINE

In 1998, Lee Health and Sarasota Memorial Healthcare System developed LeeSar and Cooperative Services of Florida, Inc. (CSF) as a means to reduce costs for medical goods and services while providing safe, high quality patient care. Additional health systems have since joined, each having representatives on the Board of Directors. LeeSar is the operations component of this partnership, while CSF is the corporate entity for product research, negotiation and contract management. By working together, we can design innovative solutions tailored to your needs, allowing you to focus on what matters most: the patient. Award-winning leaders in medical supply chain management, LeeSar/CSF is comprised of two distinct companies with a combined mission:

ADVANCE THE MISSIONS OF OUR MEMBERS TO IMPROVE THE HEALTH OF THE PATIENTS AND COMMUNITIES WE SERVE

CARING FOR OUR COMMUNITIES

Our members represent a range of communities, including a significant portion of the healthcare delivered in Southwest Florida. We take pride in knowing that our work affects more than your bottom line; it impacts the health of our families, friends, and neighbors. Our obligation to those we serve, from our members to the greater community, is what motivates us to go beyond the status quo.

HEALTHCARE SOLUTIONS THAT MAKE SENSE

PHARMACEUTICAL SERVICES

Customized compounding and nuclear pharmaceuticals, EMS services, and pharmaceutical repackaging and distribution in unit dose.

CULINARY SOLUTIONS

Customized solutions for catering and high-quality meals for hospital systems.

SURGICAL PACKAGING

Custom or standard kits reduce time gathering product for procedures.

STERILE PROCESSING

State-of-the-art sterilization and on-time delivery.

SUPPLY DISTRIBUTION

Medical and surgical supply distribution in bulk and low unit of measure.
